

### Speckled Easter Eggs

#### Create These Adorable Easter Eggs

Fill a spray bottle fitted with a fine mister with weak brewed coffee. Set aside.

Boil eggs in water for 15 minutes. Remove from water and while still hot, wrap in damp paper towels sprayed with coffee. Allow to sit for 20 minutes to stain eggs.

Create spots using brown acrylic paint pens from any craft store. Allow to dry and arrange on weathered plate with spring blossoms.

Make matching deviled eggs for your Easter spread.
